

# PVC MOULDING & TRIM BOARDS

## *Low Maintenance, Long Lasting*

Our PVC Trim Boards and Mouldings are a high performance alternative to wood for interior and exterior finishing. Designed to work with standard woodworking tools, they can be cut, nailed, drilled, glued, and painted like wood, while offering low maintenance and long-term durability. With smooth and textured finish options and optional sealed edges for easier cleaning, these products deliver a clean, consistent appearance for a wide range of trim and architectural detail applications.

### – KEY FEATURES –

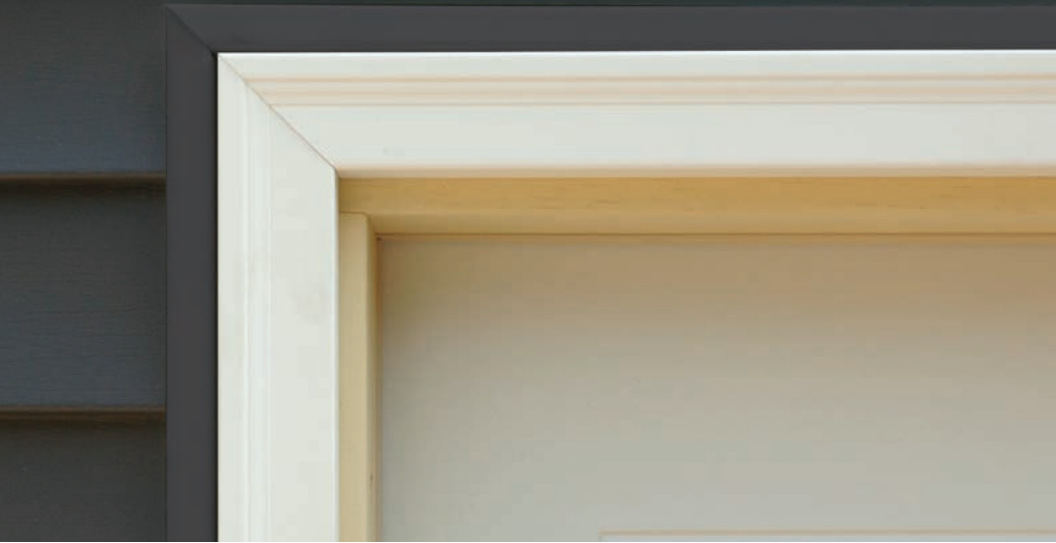

- Low maintenance & long-lasting
- Water / moisture / termite proof / fire-retardant
- Smooth–Texture surface options to match different aesthetics
- Sealed edges available for improved cleanability and reduced dirt buildup on edges
- No painting required unless desired
- Rot-free for long-term durability
