

# PRIMED MDF MOULDINGS

**Medium Density Fiberboard** (MDF) moulding is a preferred solution for a wide range of interior trim and finishing applications due to its consistent quality and performance. Featuring a smooth, uniform surface, MDF moulding accepts paint exceptionally well, delivering a refined and elegant appearance. Its affordability compared to solid wood enables the creation of detailed, decorative profiles without compromising on aesthetic appeal or budget. Renowned for its workability, MDF can be easily cut, routed, and shaped into complex designs, making it suitable for both classic and contemporary interiors. Furthermore, its dimensional stability and resistance to warping or cracking make it a dependable option for interior environments, ensuring durability and lasting visual appeal.

**Baseboards** serve both functional and aesthetic purposes in interior spaces, elegantly covering the joint where walls meet flooring. They help prevent damage from everyday impacts, such as scuffs from furniture or vacuuming, as well as minor moisture exposure. In addition, baseboards enhance the overall look of a room by adding a clean, finished transition between surfaces. Available in a wide range of profiles and styles, they offer design flexibility to complement traditional, modern, or transitional interiors.

*Example*

### Nickel Gap V-Groove (Reversible)

#### Dimensions

- 1 x 4
- 1 x 6
- 1 x 8
- 1 x 10

### Nickel Gap Shiplap (Non-Reversible)

#### Dimensions

- 1 x 4
- 1 x 6
- 1 x 8
- 1 x 10

## Beaded Nickle Gap

### Dimensions

1 x 4  
1 x 6  
1 x 8  
1 x 10

## Smooth Nickel Gap

### Dimensions

1 x 4  
1 x 6  
1 x 8  
1 x 10

**Jambs** are the vertical and top horizontal components of a window or door frame, providing structural support, stability, and a secure fit for the unit.

**Stool moulding** is installed at the base of a window, covering the gap between the window frame and the wall while providing a finished ledge.

**Flat**

**Dimensions**

- 5/8 x 4-9/16
- 5/8 x 4-5/8
- 5/8 x 6-9/16
- 5/8 x 6-5/8
- 11/16 x 4-9/16
- 11/16 x 4-5/8
- 11/16 x 6-9/16
- 11/16 x 6-5/8

**TCSTM-1**

- Dimensions**
- 11/16 x 4-3/4
  - 11/16 x 6-3/4

**TCSTM-2**

- Dimensions**
- 11/16 x 4-3/4
  - 11/16 x 6-1/2

The **Stop moulding** is a wooden strip that acts as a barrier, preventing the door from swinging too far into the frame.

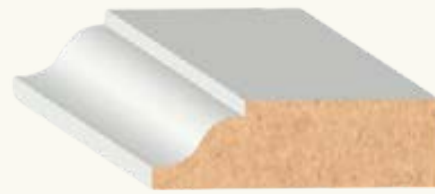

E2E

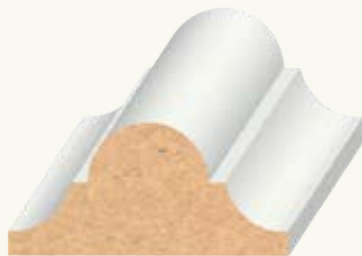

**Dimensions**  
3/8 x 1-1/4

Ogee

**Dimensions**  
1/2 x 1-3/4

An **Astragal molding** seals the gap between the door frame and the door edge, safeguarding against weather, fire, and sound transmission.

Astragal
